SETTING THE SCENE

Post-pandemic Virtual Exchange as a Third Space for English Teacher Education

Context

Before pandemic – Internationalization=physical mobility

Post pandemic – VE and IaH to include more people

VE can serve as a powerful approach to IDEA in education in general and in language teacher education in particular by leveraging technology to connect diverse groups and facilitate intercultural communication.

LOCALIZING AND (RE)CONCEPTUALIZING

Autonomy involves critical thinking and for teachers, it involves creating environments where learners are encouraged to think critically, act purposefully contributing to the transformation of society.

It
I think the facilitators create a structure that allowed for balanced contributions from the various participants because we had ample time and opportunity to give and to share our insights

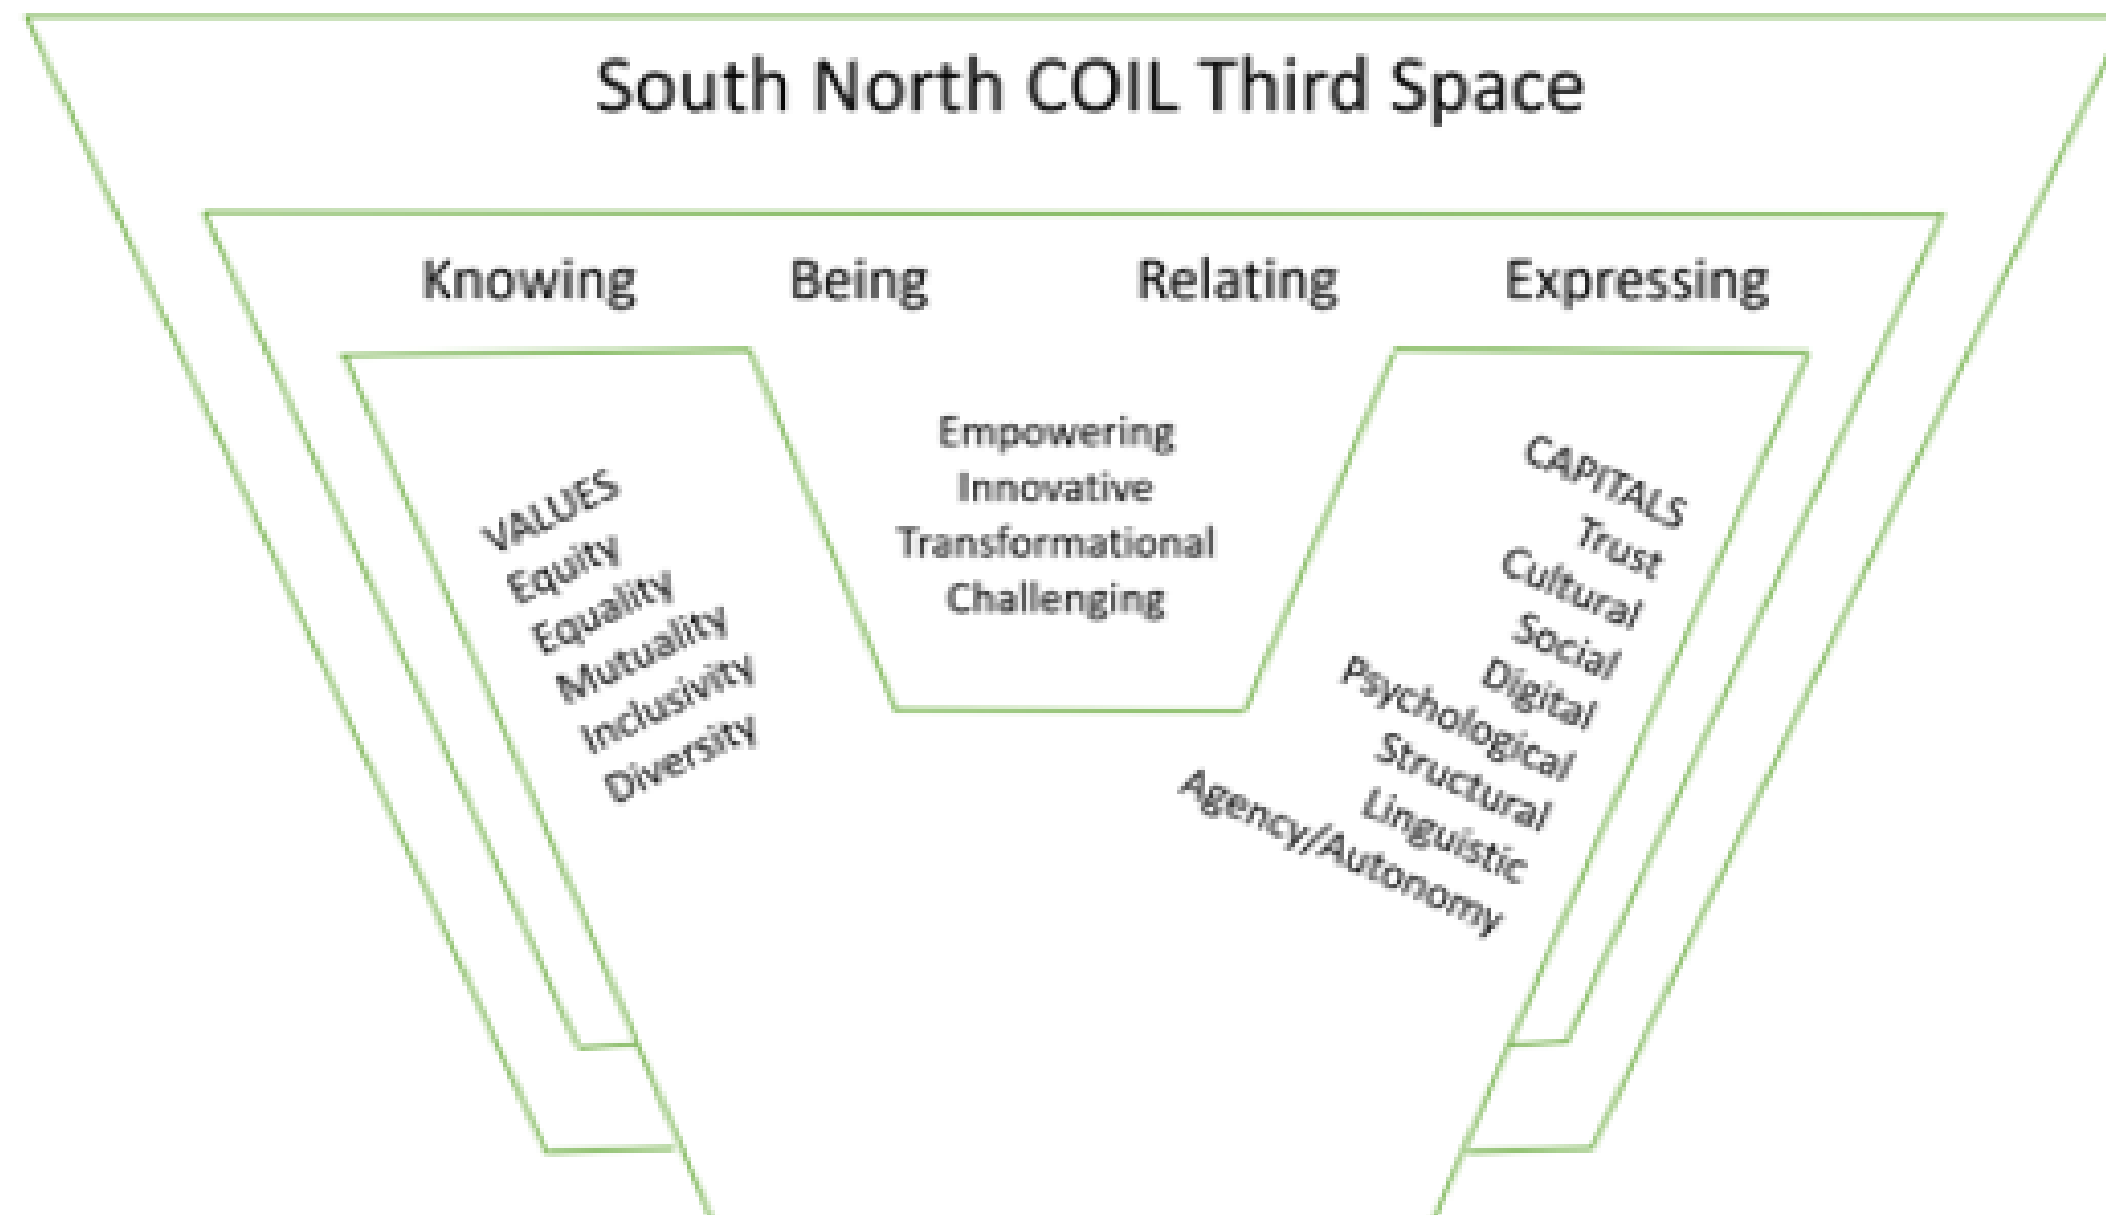

What I also felt was very inclusive for me was the fact that the facilitators almost participated hand in hand with us, because for some of us it was a first experience. It was almost as if they were like right there beside us, taking our hand and leading us into this unfamiliar space, if you want
